

Connect to MyFolder using Macintosh OS X

Go to File → Connect to Server

In the address box type: <http://myfolder.unomaha.edu/usr/username>

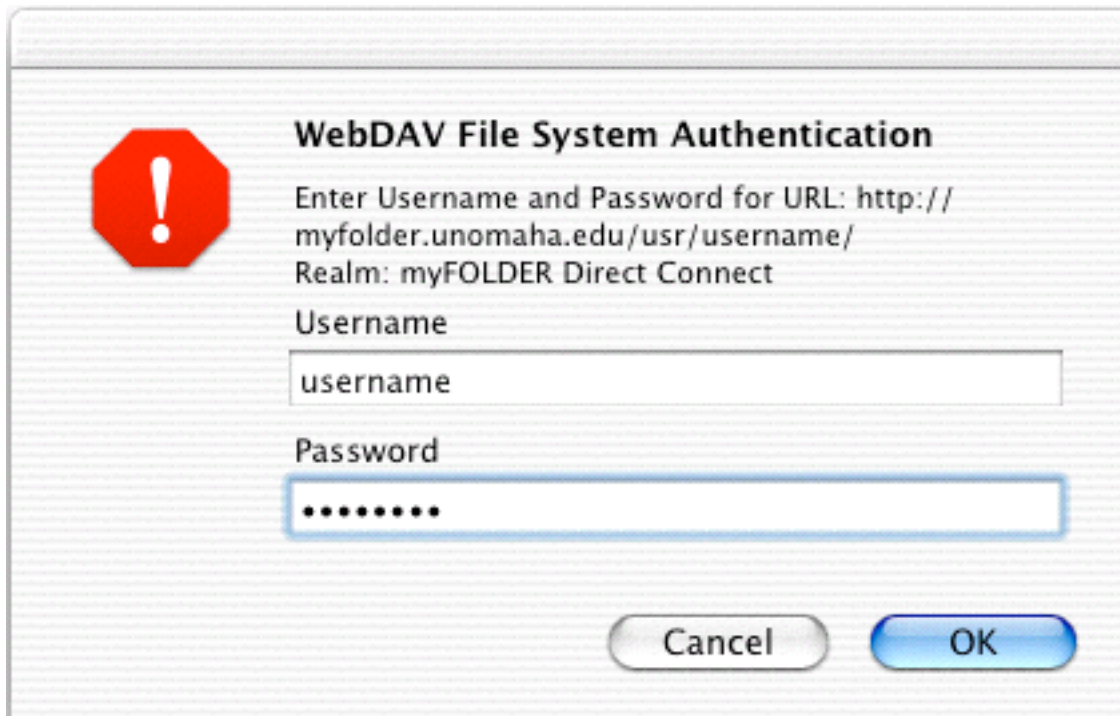

(Where username is the same username for myuno and mymail)

Click Connect.

At the next window click Continue to get to the Username and Password screen.

Type in your Username and Password and a volume will mount on your desktop where you can copy to and delete as well as launch files from.

When you are completed, simply drag the volume to the trash to logout.
